László Andrea

DJ7PNE

```
set serveroutput on
```

1. feladat

```
declare
```

```
  t varchar(20):='László Andrea';
```

```
begin
```

```
  dbms_output.put_line((t));
```

```
end;
```

Results	Explain	Describe
László Andrea		
Statement processed.		

2. feladat

```
declare
```

```
  a number:=3;
```

```
  b number:=5;
```

```
begin
```

```
  dbms_output.put_line((a+b));
```

```
end;
```

Results	Explain	Describe
8		
Statement processed.		

3. feladat

```
declare
```

```

a number:=3;
b number:=5;
begin
    dbms_output.put_line((a*b));
end;

```

Results	Explain	Describe	S
15			
Statement processed.			

4. feladat

```

declare
    t varchar(20):='László Andrea';
begin
    select upper(t) into t from dual;
    dbms_output.put_line((t));

    select lower(t) into t from dual;
    dbms_output.put_line((t));

end;

```

Results	Explain	Describe	Saved S
LÁSZLÓ ANDREA			
lászló andrea			
Statement processed.			

5. feladat

```

declare

```

```

v char(20):='László';
k char(20):='Andrea';

begin

    dbms_output.put_line((v) || (k));

end;

```

Results	Explain	Describe
László		Andrea
Statement processed.		

6. feladat

```

declare

    v date := sysdate;

begin

    dbms_output.put_line((v));

end;

```

Results	Explain	Describe
03/16/2022		
Statement processed.		

7. feladat

```

declare

    l_seed char(100);

begin

    l_seed := to_char(SYSTIMESTAMP, 'YYYY-MM-DD');

```

```
dbms_output.put_line((l_seed));
```

```
end;
```

Results	Explain	Describe
2022-03-17		
Statement processed.		

8. feladat

```
declare
```

```
pi constant number:=3.14;
```

```
r number:=12;
```

```
t number;
```

```
begin
```

```
t := r*r*pi;
```

```
dbms_output.put_line((t));
```

```
end;
```

Results	Explain	Describe
452.16		
Statement processed.		

Vezérlési szerkezet

1. feladat

```
declare
```

```
a number:=10;
```

```
b number:=81;
```

```
begin
```

```
    if a>b then
```

```
        dbms_output.put_line('A nagyobb ' || (a));
```

```
    else
```

```
        dbms_output.put_line('A nagyobb ' || (b));
```

```
    end if;
```

```
end;
```

Results	Explain	Describe
A nagyobb 81		
Statement processed.
